

Welcome to Investify INV Gaming Token

Investify INV is a community-created gaming token. A 2% dividend is paid to Investify INV shareholders. This initiative will reward and inspire all holders by rewarding those that stay on board. On June 20, 2022, the project was officially started by the first community members worldwide.

Investify INV is an intelligent game token that will be there for a long time and will reward people who invest in it and stake it for an extended period.

Introduction

Investify INV is the result of a gaming project. A token with beyond-moon potential. Enjoy the new gaming series and the potential through which the holders can buy the game, stay connected to the gaming world, bring intelligence in reward, and work together as a community to explore the gaming industry. Investify INV is fixing what other projects are missing. Liquidity has been locked for an extended period, and ownership has been abdicated.

Why is Investify INV an ERC-20 Token

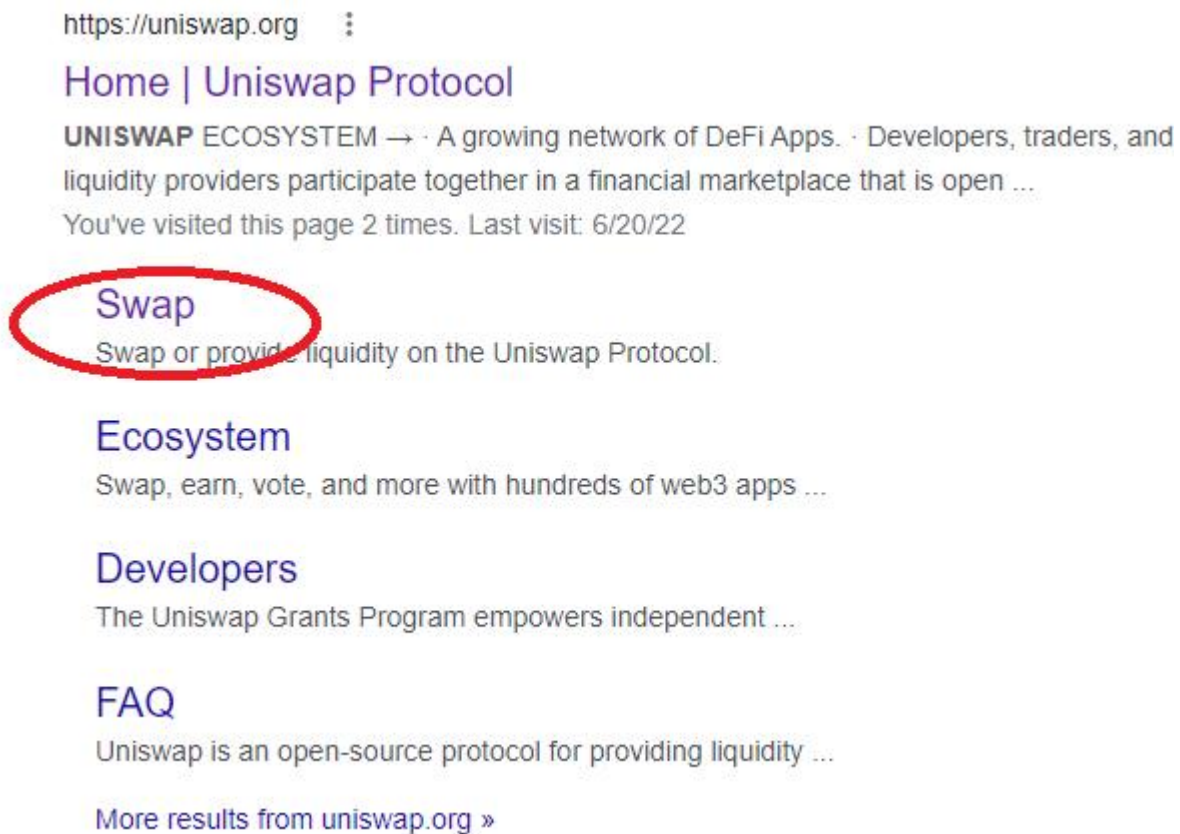

The creation of Ethereum revolutionized the blockchain ecosystem as a whole since it allowed users to create their tokens and smart contracts for the first time. The Ethereum network was the go-to platform for establishing new blockchain-based projects for many years.

The ERC20 standard has several advantages. It allows developers to create DApps that run on the Ethereum network. It also aids in the standardization of the entire process.

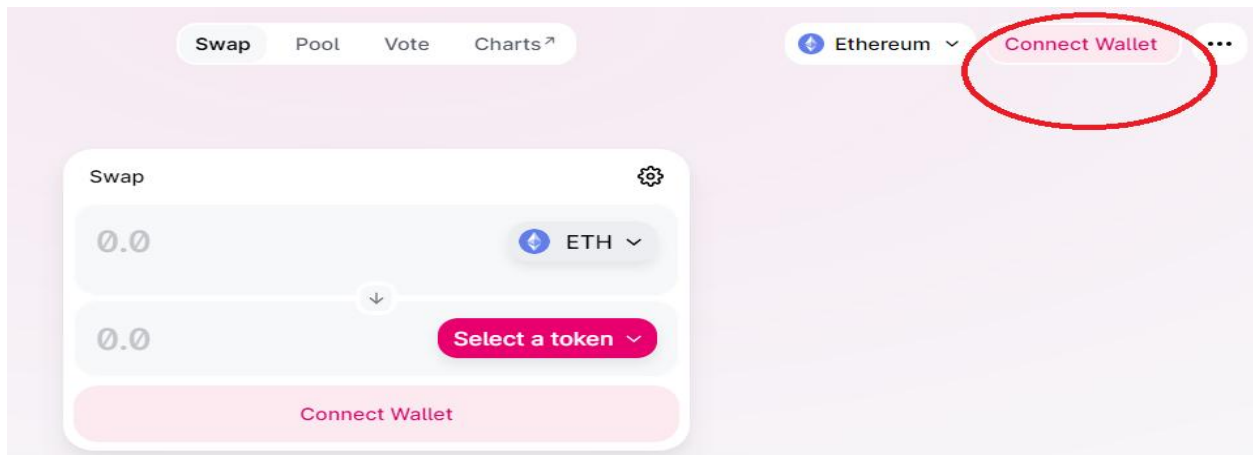

That's why INV makes use of the ERC-20 Token technology.

How to Buy Investify INV Token?

You can purchase an Investify INV token initially with USDT on ethereum and with BNB on pancakeswap and later with multiple pairs. You can participate in both, either using your mobile or desktop by simply type uniswap (Ethereum Chain Network) and pancakeswap (Binance Chain Network) in google or any other search engine e.g

Website Content

The Original Version

The Investify INV

15% Sold

Our organization will establish a staking platform after 15% of the supply is sold out, and the INV community will be rewarded for staking.

30% Sold

When 30% of the total supply has sold out, a complete edition of the game will be published, allowing INV token holders to purchase the game and other assets with their INV tokens.

40% Sold.

After 40% of the entire supply has been sold out—a safe and secure location to save and exchange your SafeMoon. Multi-chain storage, fiat-on-ramp integration, contacts list, and reflections tracker are just a few features.

50% Sold.

Hard Wallet

A hardware 'cold' wallet for storing and utilizing cryptocurrency safely. Meant as a better replacement with more features than competitors and military-grade encryption.

60% Sold.

Exchange

Investify is a ground-breaking new exchange that will offer tokenomics to every crypto on its platform. This is referred to as Cryptonomicon.
